Mumbai, Maharashtra | mirlubaib51005@gmail.com | +91 7889391814 | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Computer Engineering undergraduate at Thadomal Shahani Engineering College (CGPA: 8.68) with hands-on experience across full-stack web development, geospatial applications, and AI-integrated platforms. Proficient in React.js, Node.js, and Express.js, with a track record of building and deploying multiple live, production-ready web applications.

TECHNICAL SKILLS

Languages: JavaScript, Java, C, Python

Front-End: HTML5, CSS3, Tailwind CSS, JavaScript (ES6+), React.js, jQuery

Back-End: Node.js, Express.js, REST APIs

Tools & Platforms: Git, GitHub, Vercel

Coursework: Data Structures & Algorithms, Database Management Systems, Object-Oriented Programming, Analysis of Algorithms

PROJECTS

Itihas — Interactive Historical Exploration Platform | *React.js, React Leaflet, OpenRouteService API, Framer Motion, Vercel* — [Live ↗](#)

- Developed a geospatial web application mapping 20+ historical landmarks with dynamic, timeline-based route navigation powered by the OpenRouteService API.
- Structured a modular, component-driven React.js front end enhanced with Framer Motion animations, achieving sub-2-second page load times.
- Achieved strong Lighthouse audit results — 97/96/100/82 on desktop and 93/96/100/82 on mobile — including a perfect Best Practices score.

SiteSync — AI-Driven Multi-Site Construction Operations Platform | *React.js, Node.js, Express.js, PostgreSQL* — [Live ↗](#)

- Built a full-stack construction operations platform enabling real-time tracking of budgets, inventory, equipment, and workforce milestones across 4+ concurrent job sites.
- Integrated an autonomous AI operations agent using Groq (Llama 3.3 70B) and the Gemini API, applying multi-step function calling across 10+ PostgreSQL tables to automate anomaly detection and root-cause analysis.
- Implemented a retrieval-augmented conversational assistant with source-grounded responses and a live diagnostics stream for surfacing operational risks without manual checks.

EXPERIENCE & ACTIVITIES

Member — TSEC Developers Club *Thadomal Shahani Engineering College* | 2025 – April 2026

- Participated in technical workshops and collaborative software development initiatives within an agile team environment.
- Contributed to a developer community focused on practical full-stack engineering and real-world project building.

AWARDS & ACHIEVEMENTS

- Won 2nd Place — CODEISSANCE 2026 (24-Hour National Level Hackathon), Thadomal Shahani Engineering College.
- Won 3rd Place — MOSAIC National Level UI/UX Hackathon, D.Y. Patil University (2026): secured a podium finish among engineering students across the region, demonstrating strong design-thinking and user-experience skills.

EDUCATION

B.E. Computer Engineering — Thadomal Shahani Engineering College, Mumbai

2024 – Present | CGPA: 8.68

HSC — SRM Welkin | 86.2% SSC — Nether Field School | 93.8%
